

UC SANTA BARBARA

RFQ Number: FM230405

Project Name: UCSB Clean Energy Master Plan

ADVERTISEMENT FOR CONSULTING ENGINEER

UCSB requests a written response to this Request for Qualifications (RFQ) seeks the qualifications of engineering professionals that are interested in providing decarbonization and electrification pre-design study services for the **UCSB Clean Energy Master Plan** project. The selected consultant will provide a clean energy master plan focused on reducing emissions from campus heating, domestic hot water, cooking and process loads. Engineering teams or firms with expertise in designing, planning and programming clean energy utility infrastructure systems in a campus setting are encouraged to respond.

The complete RFQ will be available on the project page at www.ucsbplanroom.com/rfq on June 12, 2023. A shortlist of firms will be determined by a University screening committee, and final consultant evaluations and selection recommendations developed by a University selection committee.

The deadline for SOQ submittals is 4:00PM on **June 23, 2023**.

Each candidate firm will be required to show evidence of its equal employment opportunity policy. Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy.

Julie Hendricks, AIA

Campus Architect & Director, Design and Construction Services
