Project Name: San Joaquin Apartments and Precinct Improvements Geotechnical Services

Project No.: FM150258

Project Description

Proposals are hereby solicited from geotechnical professionals interested in providing geotechnical engineering-related construction materials testing services for sitework for the San Joaquin Apartments project.

Scope of Services

Task 1: Geotechnical consultation, design support and engineering observations. Provide geotechnical observation and project support during the site grading to observe site conditions for conformance to the recommendations provided in the Geotechnical Report dated July, 2013 (Fugro Consultants, Inc.).

Task 2: Construction Materials Testing. Provide a field technician, at the direction of the project inspector, to perform construction materials testing services. This would include the following activities:

- a. Quality Assurance Testing of Contractor-Supplied Soil Materials;
- b. Observation of Grading and Earthwork Activities;
- c. In-Place Density Testing of Rough Grading, Fine Grading and Foundation/Pavement Subgrade;
- d. In-Place Density Testing of Site Utility Trench Backfill;
- e. Hardscape and Sitework Portland Cement Concrete (PCC) sampling and testing;
- f. In Place Density Testing and Laboratory Testing of Asphalt Concrete Materials;
- g. Laboratory Testing in support of the project; and
- h. Provide daily reports to the onsite construction manager documenting general grading activities and construction results.

Task 3: Project Coordination and Reporting. Provide daily field reports that describe daily grading activities and provide field test results as well as a final report which summarizes the results of the in-place density field, laboratory testing and construction observations.

The anticipated total construction budget is in the range of \$125 million - \$130 million, and construction will depend on availability of funds.

Instructions for Applicants

Geotechnical professionals with qualifications that include experience in the investigation of projects similar in scale and scope are encouraged to respond.

Interested firms may view and/or download the project documents. Should you require any assistance, please call Deedee Ciancola, University Representative, at (805) 893-5332.

Five (5) hardcopy sets and one (1) digital copy (.pdf) of each consultant team's Proposal must be delivered to UCSB by 4:00p.m. on **December 9, 2014** to the following address:

Attn: Deedee Ciancola, University Representative
Design & Construction Services
Facilities Management Bldg. 439, Room 'E'
University of California, Santa Barbara
Santa Barbara, CA 93106-1030

Affirmative Action Statement

Each candidate firm will be required to show evidence of its equal employment opportunity policy. Every effort will be made to ensure that all persons, regardless of race, religion, sex, color, ethnicity and national origin have equal access to contracts and other business opportunities with the University.
