

### **Advertisement**

Proposals are hereby solicited from environmental consultants interested in providing professional services to produce a Hydromodification Management Plan and perform related services assisting the University of California, Santa Barbara to: 1) maximize infiltration and minimize runoff volume and rate; 2) protect riparian areas with buffer zones; 3) minimize pollutant loading; and 4) provide long-term watershed protection as stated in the University's Stormwater Management Plan. The services requested will support the University in implementing the National Pollutant Discharge Elimination System (NPDES) Phase II General Permit to reduce pollutants in stormwater discharges.

### **Instructions for Application**

Consultant firms with relevant qualifications for the proposed work that include experience with similar projects are encouraged to respond. A copy of the Statement of Qualifications (SOQ) form is available at: <http://facilities.ucsb.edu>, or call Joseph Van Thyne, University Representative 805. 893. 6137.

Five sets of the Proposal must be returned to the attention of:

Joseph Van Thyne, University Representative, Contracting Services – Facilities Management Bldg. 439, Office of Design and Construction, University of California, Santa Barbara, CA 93106-1030 no later than 4:00 PM, Friday, December 18, 2009.

### **Affirmative Action Statement**

Each candidate firm will be required to show evidence of its equal employment opportunity policy. Every effort will be made to ensure that all persons, regardless of race, religion, sex, color, ethnicity and national origin have equal access to contracts and other business opportunities with the University.
