Subject: Request for Proposal
Jameson Community Center Renewal Project
UCSB Project No. 986385

Thank you for your interest in the Jameson Community Center Renewal Project. The screening process for design professional selection is now complete and I am pleased to inform you that you are the finalists.

The schedule for selection is as follows:

July 17, 2012 Selection Interviews

Location: San Clemente Center, Room 3118 (See attached map).

All visitors including consultants are required to purchase parking permits, available at Parking Dispensers. Please park in Lot #30 or 38.

Interview Time: Schedule below

Selection Interviews

On July 17, 2012, interviews will be held with the finalists. The format will allow 30 minutes for a presentation by each finalist, and 30 minutes for questions to and from the Selection Committee. The committee has busy schedules and many other demands, no change in schedule/format will be entertained. Although not restricted, it is recommended that the presentation team be limited only to those people with a significant role to the project (1 to 3 people).

Interview Schedule:

IBI Group Architecture Planning	1:00 PM
Blackbird Architects	2:30 PM
Winick Architects	4:00 PM

The Selection Committee will be most interested in the following aspects of your firm's presentation:

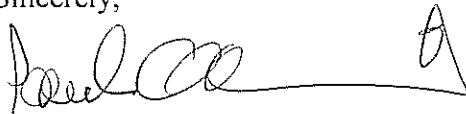

Principal Staff and Consultants – It is recommended that the presentation team include: the responsible Partner; the Project Manager; the Project Architect; and Dining Facility consultant. Don't bring anyone that we would not see on a routine basis throughout the course of the project.

Experience – A computer or slide presentations will not be necessary. We want to meet those staff members who will have day to day involvement with the project, understand their roles and discuss previous projects similar in size and scope to this project..

If you have questions, please contact George Levinthal at (805) 893-2661 x2205.

On behalf of the Campus, please accept my appreciation for your interest in this project.

Sincerely,

Paul Garownik
Associate Director, Design & Construction Services
