To whom it may concern:

On March 5, 2012, submittals were received from six (6) firms in response to the Prequalification Questionnaire issued by the University on February 22, 2012. The University evaluation committee reviewed and evaluated the submittals based on a pass/fail rating system contained in the Prequalification Questionnaire. Written clarifications were requested from each of the six firms, but only four submitted all of the required information and supporting data prior to the stated deadline. Accordingly, two firms were deemed non-responsive and thereby eliminated from further consideration as a result of their failure to provide the information requested by the University.

The four firms listed below were determined to be responsive to the University's Prequalification Questionnaire and subsequent clarification questions, and, as a result, are hereby prequalified as eligible to submit a bid for **Cabinet, Millwork & Finish Carpentry (License Code C-6)** work to Bidders participating in the bid solicitation associated with on one or both of the above referenced projects.

The University determined that following firms, in no particular order, are prequalified to perform the C-6 specialty work described above:
