REVISED SECTION 01012
INFORMATION & PROCEDURES INSTRUCTIONS (RFI)

PART 1. GENERAL

1.01 DESCRIPTION

A. This SECTION contains the procedures to be followed by Contractor upon discovery of any apparent conflicts, omissions, or errors in the Contract Documents or upon having any question concerning interpretation.

1.02 PROCEDURES

A. Notification by Contractor:

1. Submit all requests for clarification or additional information in writing to University’s Representative using the Request For Information (RFI) form provided by University’s Representative or a similar form approved by University’s Representative.

2. Number RFIs sequentially. Follow RFI number with sequential alphabetical suffix as necessary for each resubmission. For example, the first RFI would be “001”. The second RFI would be “002”. The first resubmittal of RFI “002” would be “002a”.

3. Limit each RFI to one subject.

4. Submit a RFI if one of the following conditions occur:

   a) Contractor discovers an unforeseen condition or circumstance that is not described in the Contract Documents.

   b) Contractor discovers an apparent conflict or discrepancy between portions of the Contract Documents that appears to be inconsistent or is not reasonably inferred from the intent of the Contract Documents.

   c) Contractor discovers what appears to be an omission from the Contract Documents that cannot be reasonably inferred from the intent of the Contract Documents.

5. Contractor shall not:

   a) Submit an RFI as a request for substitution.

   b) Submit an RFI as a submittal.

   c) Submit an RFI under the pretense of Contract Documents discrepancy or omission without thorough review of the documents.
d) Submit an RFI in a manner that suggests that specific portions of the Contract Documents are assumed to be excluded or by taking an isolated portion of the Contract Documents in part rather than whole.

e) Submit an RFI in an untimely manner without proper coordination and scheduling of Work of related trades

6. If Contractor submits an RFI contrary to the above, Contractor shall pay the cost of any review, which cost shall be deducted from the contract sum.

7. Contractor shall submit request for information or clarification immediately upon discovery. Contractor shall submit RFIs within a time frame so as not to delay the Contract Schedule while allowing the full response time described below.

1.03 RESPONSE TIME

A. University's Representative, whose decision will be final and conclusive, shall resolve such questions and issue instructions to Contractor within a reasonable time frame. In most cases, RFIs will receive a response within 6 working days. If in the opinion of University's Representative more than 6 working days is required to prepare a response to an RFI, Contractor will be notified in writing.

B. Should Contractor proceed with the Work affected before receipt of a response from University's Representative, within the response time described above, any portion of the Work which is not done in accordance with University's Representative's interpretations, clarifications, instructions, or decisions is subject to removal or replacement and Contractor shall be responsible for all resultant losses.

C. Failure to agree: In the event of failure to agree as to the scope of the contract requirements, Contractor shall follow procedures set forth in Article 4 of the General Conditions.

2. University’s Representative will determine acceptability of the Contract Schedule within 7 days after its receipt.

3. No Application For Payment will be processed nor shall any progress payment become due until the Contract Schedule is accepted by University’s Representative.

B. Form

1. The Contract Schedule shall be a bar chart showing continuous flow from left to right. Specific calendar dates shall be clearly and legibly shown for the start and finish of each Work activity.

2. The Contract Schedule shall be suitable for monitoring progress of the Work, in sufficient detail to demonstrate adequate planning for the Work, and represent a practical plan to complete the Work within the contract time.

C. Activities

1. Identify all Work activities in correct sequence for the completion of the Work. Work activities shall include the following:

   a) Major Contractor-furnished equipment, materials, and building elements, and scheduled activities requiring submittals or University’s prior approval.

All other Work activities are defined as non-critical Work activities and are considered to have float.
4. Float is defined as the time that a non-critical Work activity can be delayed or extended without delaying the scheduled completion of milestones specified in this SECTION or the scheduled completion of the Work, or both. Neither Contractor nor University shall have an exclusive right to the use of float. The party using float shall document the effect on the updated Contract Schedule.

5. Delays of any non-critical Work activity shall not be the basis for an extension of contract time until the delays consume the float associated with that non-critical Work activity and cause the Work activity to become critical.

6. The presentation of each Work activity on the Contract Schedule shall include a brief description of the Work activity, the duration of the Work activity in days, and a responsibility code identifying the organization or trades performing the Work activity.

7. Contractor shall furnish cost estimates for each Work activity which cumulatively equal the total contract cost. Mobilization costs may be shown separately; however, other costs, i.e., profit and bond shall be pro-rated throughout all activities.

1.03 UPDATING

   2. No Application For Payment will be processed nor shall any progress payments become due until updated Contract Schedules are accepted by University’s Representative.

   3. The accepted, updated Contract Schedule shall be the Contract Schedule of record for the period it is current and shall be the basis for payment during that period.
