Failure to list, on the Bid Form, any one of the first three (3) items set forth above will result in the University treating the Bid as if no Subcontractor was listed for the Work Activity and Bidder will thereby represent to University that Bidder agrees that it is fully qualified to perform that portion of the Work and shall perform that Work."

If Alternates(s) are deductive, University will continue to select and accept Alternate(s), if any, until and only until said sum is within Project's budget. The Contract Sum will be the sum of the Lump Sum Base Bid and the additive or deductive amounts for all Alternates that University has selected to be included in the Contract Sum as of the time of award. Pre-determined order: Alternate One."

Each prospective Contractor must answer all of the following questions and provide all requested information. Any prospective Contractor failing to do so will be deemed to be not responsive and not qualified with respect to this Qualification. All contractors that have submitted a Qualification Questionnaire will be notified in writing of whether or not they have successfully achieved Qualification status. Prospective Contractors that affirmatively respond (i.e. answer YES) to all questions, submit all required information and supporting data, and are determined to have accurately responded to the questions will be qualified.

The Project Data Sheets must be fully completed, but answering “NO” to a question contained solely in a Project Data Sheet (other than those questions that refer specifically to the Construction Experience required for a comparable project) shall not necessarily result in failure to achieve qualification status. Only those Contractors that have been determined to be qualified and to have been determined to be responsible contractors will be eligible to submit a bid for this Project. In addition, prospective Contractor must list accurate names and telephone numbers of applicable contract references. If University is unable, after reasonable efforts, to confirm the past project information submitted by prospective Contractor, said project will not be accepted as a qualifying project.

If the prospective Contractor is determined by the University not to be qualified the prospective Contractor may request a review by the Facility. Any such request must be received by the Facility within 3 calendar days after receipt by the prospective Contractor of the determination. The decision resulting from such review is final and is not appealable within the University of California. Any person or entity not satisfied with the outcome of the qualification must file a writ challenging the outcome within 10 calendar days from the date of the University’s written notice regarding qualification determination. Any assertion that the outcome of the qualification process was improper will not be a ground for a bid protest.

All information submitted for qualification evaluation will be considered official information acquired in confidence, and the University will maintain its confidentiality to the extent permitted by law.
WHERE NECESSARY, COPY THE FORMS IN THIS PACKAGE. USE ONLY THESE FORMS.
